

Tiger Shur Seal

Loss Circulation Material

Description

Shur Seal consists of various particle sizes of shredded paper which acts as a loss circulation material in a water based fluid system.

Applications

Shur Seal can be used as a slug to treat loss circulation zones or mixed into the complete mud system. It is most effective when used as a slug before drilling through a loss circulation zone.

Advantages

- Environmentally safe
- Easy to use
- Easy to drill out
- Can be used with other drilling fluid products

Recommended Treatments

5 to 30kg can be mixed into a slug and pumped through the rods into the loss circulation zone.

Packaging

Shur Seal comes in 10kg bags.
